

TAGRA 2024

Saturday, December 21, 2024 - Sunday, December 22, 2024

Erzurum, Turkiye

Scientific Program

Other Fields

Other Research Fields

Nano-Science and Nanotechnology

Nanofluids

Nanofabrication and nanoprocessing

Nanomaterials, Characterization and Applications

Nanoelectronics and Devices

Applied Mathematics, Computational Science, Computing and Data Science

Artificial Intelligence and Machine Learning Applications

Computational Science and Big Data

Quantum Computing and Emerging Technologies

Mathematical Modeling and Simulation

Statistics and Data Analysis

Applied Probability and Optimization

Materials, Manufacturing and Mechanical Engineering

Advanced Materials

Advanced Manufacturing and Materials Processing

Mechanical Engineering: Energy and Thermodynamics

Mechanical Engineering: Dynamics and Vibration Analysis

Energy, Environment and Sustainability

Renewable Energy and Sustainable Development

Environmental Science and Climate Change

Agricultural and Food Science Innovations

Marine Sciences

Electronics, Telecommunications, and Control Systems

Electronics and Embedded Systems

Automation and Control Systems

Telecommunications and Wireless Networks

Biomedical Sciences and Biotechnology

Biomedical Engineering and Biotechnology

Health Sciences and Medical Physics

Pharmacology

Physics, Chemistry, and Applied Sciences

Theoretical and Applied Physics

Chemical Engineering and Process Technology

Earth and Environmental Sciences

Civil Engineering, Infrastructure, and Urban Development

Civil Engineering and Smart Infrastructure

Construction Technology and Structural Engineering

Geospatial Science and Remote Sensing

Industrial Engineering, Ergonomics, and Human Factors

Industrial Engineering and Operations Research

Human Factors and Ergonomics

Supply Chain and Systems Engineering
